

# NPDES PHASE II

## STORM WATER MANAGEMENT PLAN ASSISTANCE

### Engineering Client Success

Is your school district regulated by the NPDES Phase II Rules? Has your NOI (Notice of Intent) been filed with the MDEQ? Are you working on the intimidating task of developing and implementing a Storm Water Management Plan (SWMP) for your entire school district?

Let TEC join your team to help ease the regulatory challenge of complying with the NPDES Phase II rules, and engineer a successful storm water program for your district. These services can be provided at varying levels of support, including the following:

- **Determine need to comply**
- **Complete and submit the NOI**
- **Educate school district staff members on the NPDES Phase II general permit requirements**
- **Develop a SWMP, including best management practices and measurable goals**
- **Assist SWMP implementation**

- **Assess and monitor storm water systems including:**

- ✓ *Compliance with SWMP*
- ✓ *Water Quality Monitoring*
- ✓ *Changes to the SWMP*
- ✓ *Data Management for Record Keeping and Reporting*

- **Prepare MDEQ reports (annual and semi-annual)**
